FULL STACK WEB DEVELOPMENT
Uplift Code Camp
July 2024 - December 2024

MODERN REACT COURSE
Udemy
2024

MUSIC PRODUCTION
De Lasalle College of Saint Benilde
2006

PROFILE

I am a full-stack web developer specializing in the MERN (MongoDB, Express, React, Node.js) stack. Recently refined my skills through an intensive coding bootcamp and am eager to apply technical expertise and creative problem-solving to build innovative web solutions.

EXPERIENCE

SENTINEL - DOCUMENT TRACKER   2024
https://sentinel-ie0i.onrender.com/

Developed a full-stack application designed for secure document tracking and management. Features include user authentication, authorization, and a robust interface for organizing and accessing documents efficiently.
Technologies: React, Tailwind, Node, Express, Socket, MongoDB

TAKAM - HOMEMADE FOOD MARKETPLACE   2024
https://takam.onrender.com/

Developed a full-stack food marketplace application with user profiles, item posting, comments, favorites, and order management.
Technologies: React, Node, Express, and Tailwind CSS.

QUICK INSIGHT - AI BOOK SUMMARIZER   2024
https://quickinsight-app.onrender.com/

Developed a web application that uses AI to generate concise book summaries and key takeaways, helping users quickly evaluate a book's value.

- HTML, CSS, JavaScript, Google Books API, Google Gemini AI

FREELANCE AUDIO ENGINEER   2015 - 2023

- Mixed and edited audio for film, TV, and digital media, ensuring broadcast-quality sound.
- Collaborated with directors and producers to achieve creative soundscapes, adapting to tight deadlines and last-minute changes.
- Customized audio solutions to address unique project needs, maintaining clarity and precision in all deliverables.
